

## **AMENDMENTS TO THE DRAWINGS WITHOUT MARKINGS**

### **IN THE DRAWING:**

Figs. 1 to 13 have been added and labeled as "New Sheet".

## REMARKS

This Amendment is submitted preliminary to the issuance of an Office Action in the present application.

Applicant has amended claims 1 to 30 to remove any multiple dependency of the claims and to present claims in proper form and language and to better encompass the full scope and breadth of the invention. Applicant asserts that no claim has been narrowed to trigger prosecution history estoppel. Claims 31 and 32 have been added to set forth subject matter deleted from claims 26 and 28. No fee is due as the surcharge for submission of twelve claims in excess of twenty and submission of one independent claim in excess of three has already been paid upon entering the national U.S. phase.

In addition, applicant submits herewith new Figs. 1-13 to show every feature set forth in the claims. The specification has been amended to present it with proper headings and to make it consistent with the addition of Figs. 1 to 13. No new matter has been added.

More specifically, support for the submission of new Figs. 1-13 and the addition of paragraphs [0054] to [0075] in the specification can be found as follows:

Fig. 1 and new paragraph [0068], refer to original paragraphs [0007] and [0008], as well as claims 1 to 3.

Fig. 2 and new paragraph [0069], refer to original paragraph [0006] and [0008].

Fig. 3 and new paragraph [0070], refer to original paragraph [0010] as well as claim 5.

Figs. 4, 5 and new paragraph [0071], refer to original paragraph [0011].

Figs. 6, 7, and new paragraph [0072], refer to original paragraphs [0012] and [0013].

Figs. 8, 9, 10, 11 and new paragraph [0073], refer to original paragraphs [0016], [0017], [0018] and [0019].

Fig. 12 and new paragraph **[0074]**, refer to original paragraph **[0024]**.

Fig. 13 and new paragraph **[0075]**, refer to claim 4.

When the Examiner takes this application up for action, s/he is requested to take the foregoing into account.

Respectfully submitted,

By: 

Henry M. Feiereisen
